<b>3.2 Products with building information queries</b> .....	11

## 1 VTJ interface

VTJ interface query products are divided into different price groups depending on the scope of the Population Information System data to be handed over to the customer.

The costs arising from the establishment of a VTJ interface connection and changes to it as well as any additional costs are charged separately on a case-by-case basis.

In addition to the products referred to in this price list, the Population Register Centre can also supply other query products tailored to specific needs and priced separately.

Minimum monthly fee for queries is EUR 7.00/invoice. No VAT is applicable to the Population Register Centre's fees.

### 1.1 Validity

This price list has been valid since 29 May 2012 and it will remain in effect until further notice. These prices were changed on 5 September 2017 by making the price lists for VTJkysely and VTJ interface into separate appendices, by updating the layout of the price list and by adding the price group "mini" to the price list.

## 2 Queries for personal data

### 2.1 Price groups for personal data queries

The price groups are based on the amount and type of data contained in the products of each group. The maximum data content of a product in the price group is described at each price group.
